

Vol. 53, 2017

<i>Issue 1 (15 articles)</i>		Pages
1	Plasma electrolytic treatment of VT22 titanium alloy in electrolytes with carbon-containing compounds. <i>S.A. Kusmanov, I.G. Dyakov, P.N. Belkin.</i>	1–6
2	Electrodeposition of alloys of the iron group metals with tungsten from citrate and gluconate solutions: Size effect of microhardness. <i>S.A. Silkin, A.V. Gotelyak...</i>	7–14
3	Synthesis and characterization of photosensible $\text{CH}_3\text{NH}_3\text{PbI}_3$ and $\text{CH}_3\text{NH}_3\text{PbI}_{3-x}\text{Cl}_x$ perovskite crystalline films. <i>I. Plesco, V. Postolache, G. Volodina</i>	15–19
4	On the size of induced charges and the electrostatic dipole of a prolate conducting spheroid positioned collinear to a uniform electrostatic field. <i>N.Yu. Kolbneva, S.O. Shiryayeva.</i>	20–26
5	Computer simulation of the injection mechanism of initiation of EHD flows in liquids with a higher level of low-voltage conductivity. <i>Yu.K. Stishkov, D.V. Bogdanov.</i>	27–33
6	Heat transfer of an evaporator–condensing system with electrohydrodynamic coolant circulation and different spatial orientation. <i>M.K. Bologa, F.P. Grosu, I.V. Kozhevnikov...</i>	34–41
7	Inhibition effect of a new pyrimidine derivative on the corrosion of mild steel in hydrochloric acid solution. <i>Prakash B. Shetty, T.H. Suresha Kumara</i>	42–51
8	Effect of Ni/Fe ratio of electrolyte salts on the magnetic property of electrodeposited Fe–Ni alloy. <i>K.M. Shorowordi, M. Moniruzzaman...</i>	52–58
9	Kinetics of the hydration reaction at the electrolyte–insulator interface. <i>Shahriar Jamasb</i>	59–63
10	Synthesis of ZSM-5 zeolite from metakaolinite: Effects of the $\text{SiO}_2/\text{Al}_2\text{O}_3$ molar ratio, the initial precursor and the presence of organic template agent. <i>Y. Ghrib, N. Frini-Srasra, E. Srasra</i>	64–70
11	Modification of biomass production and biochemical composition of <i>Saccharomyces cerevisiae</i> CNMN-Y-18 and <i>Saccharomyces cerevisiae</i> CNMN-Y-20 yeasts under the action of extremely high frequency electromagnetic radiation. <i>L. Bejenaru, A. Usatyi, E. Tofan...</i>	71–76
12	Dependence of magnetic properties of micro- and nanowires on stress and magnetic heat treatment. <i>S.A. Baranov</i>	77–88
13	Removal of enrofloxacin from aqueous solutions using illite and synthetic zeolite X. <i>M. Mezni, T. Saied, N. Horri, E. Srasra</i>	89–97
14	Experimental studies of a low-pressure electric discharge detector. <i>A.I. Zhakin, A.A. Lutsenko</i>	98–103
15	Energy conversion in an oscillatory circuit and cylindrical discharge chamber during electric discharge in water. <i>V.M. Kosenkov.</i>	104–110
<i>Issue 2 (11 articles)</i>		
1	Features of a single crater formation under the influence of the impulse of laser radiation on the material. <i>S.A. Kochergin, Yu.A. Morgunov...</i>	111–115
2	Formation of thick layer electro-spark coatings for restoring worn-out parts of power hydraulic cylinders. <i>S.A. Velichko, P.V. Senin, V.I. Ivanov...</i>	116–123
3	On the possibility of using the Cahn–Hilliard model to describe electrodeposition of nanostructures. <i>S.A. Baranov</i>	124–136

4	Further evidence of phase formation through a liquid state stage in metals being electrodeposited: Part 1. <i>O.B. Girin.</i>	137–143
5	On the stability of ball lightning with respect to its own and induced charges. <i>N.A. Petrushov, A.I. Grigor'ev...</i>	144–149
6	Nonlinear deformations and nonlinear waves on charged and polarizable plane free surfaces. <i>A.I. Zhakin</i>	150–166
7	Effect of process parameters on the formation of boron-titanium and titanium-boron multi-layered diffusion coatings on interstitial-free steel. <i>F.E. Şeşen, Ö.S. Özgen, M.K. Şeşen.</i>	167–178
8	Corrosion behaviour and characterisation of Ni–Nb ₂ O ₅ composites prepared by pulse electrodeposition. <i>R. Mohan Reddy, B.M. Praveen...</i>	179–185
9	Magnetotransport of Cu ₂ ZnSnS ₄ single crystals in two regimes of variable–range hopping conduction. <i>M. Guc, E. Lähderanta, M.A. Shakhov...</i>	186–195
10	Immobilization of enzyme preparations from <i>Raphanus sativus L. var. niger</i> on natural bentonite and bentonite modified by phosphate ions. <i>M.O. Khodykina, K.D. Pershina...</i>	196–201
11	Study of the behavior of three Tunisian clays suitable for the manufacture of ceramics. <i>A. Bennour, E. Srasra, N. Hatira, S. Harabi</i>	202–211
Issue 3 (14 articles)		
1	Effect of a corona discharge on the morphology and photoluminescence intensity of nanocomposites based on polypropylene (PP) and zirconia (ZrO ₂) nanoparticles. <i>M.A. Ramazanov, F.V. Hajiyeva...</i>	213–217
2	The development of criteria for evaluating the effectiveness of the surface layer formation and its properties in the process of electrospark alloying. Part I. The state of the issue. Kinetic and functional criteria of the efficiency of a doped layer's formation. <i>V.I. Ivanov, A.D. Verkhoturov</i>	218–223
3	The development of criteria for evaluating the effectiveness of the surface layer formation and its properties in the process of electrospark alloying (ESA). Part 2. The criteria of the effectiveness of the ESA process and electrospark coatings. <i>V.I. Ivanov, A.D. Verkhoturov</i>	224–228
4	Influence of the surface morphology of aluminum foil on the probability of heterogeneous recombination of O(³ P) atoms in oxygen plasma. <i>N.V. Kholodkova, I.V. Kholodkov</i>	229–232
5	Further evidence of phase formation through a liquid state stage in metals being electrodeposited: Part 2. <i>O.B. Girin.</i>	233–239
6	The effect of gamma irradiation on electret properties of polyethylene. <i>A.A. Guzhova, M.F. Galikhanov.</i>	240–244
7	Comparison of ZnS thin films fabricated by electrodeposition and spray pyrolysis methods. <i>M. Izi, G. Heidari, S.M. Mousavi Khoie...</i>	245–249
8	Nonlinear dynamics of electron localization in four-center linear and cyclic type clusters in an external electric field. <i>O.V. Yaltychenko, E.Yu. Kanarovskii</i>	250–257
9	Ni–Si ₃ N ₄ : Electrodeposition, properties and corrosion behavior. <i>R. Mohan Reddy, B.M. Praveen...</i>	258–264
10	<i>Sinapis alba</i> as an anti-rusting agent for corrosion of stainless steel in hydrochloric acid medium. <i>N. Shwetha, Padmalatha Rao</i>	265–273
11	Installations for producing electrospark erosion- and abrasion-resistant coatings on the blades of steam turbines of thermal and nuclear power plants. <i>A.V. Belyakov, A. N. Gorbachev...</i>	274–284
12	Electric-spark coatings on a steel base and contact surface for optimizing the working characteristics of babbitt friction bearings. <i>V.B. Tarel'nik, A.V. Paustovskii...</i>	285–294

13	Preparation, qualities and defects of ceramic materials from Tunisian clay minerals. <i>S. Mahmoudi, E. Srasra, F. Zargouni</i>	295–301
14	Physicochemical and ceramic properties of clays from jebel kebar (Central Tunisia). <i>O. Ben Amor, A. Elhechi, E. Srasra...</i>	302–310
Issue 4 (11 articles)		
1	Investigation of corrosion resistance of aluminum alloy products with protective coatings formed by plasma electrolytic oxidation. <i>A.V. Kolomeichenko, N.S. Chernyshov...</i>	322–326
2	Evaluation of the antiwear properties of transmission oil with nanoscale powder additives. <i>V.V. Safonov, V.V. Venskaitis...</i>	311–321
3	Study of the kinetics of space charge formation in colloidal magnetic nanoparticles in liquid dielectrics. <i>K.V. Erin</i>	327–332
4	Process of mass transfer of amorphous alloys under low-voltage electric spark treatment. <i>I.S. Kuznetsov, A.V. Kolomeichenko...</i>	333–338
5	Further evidence of phase formation through a liquid state stage in electrodeposited metals: Part 3. <i>O.B. Girin</i>	339–344
6	On nonlinear deformation correction to oscillations frequencies of a strongly charged drop in an electrostatic suspension. <i>A.I. Grigor'ev, N.A. Petrushov...</i>	345–351
7	Synthesis of effective electrocatalyst for water splitting application from simple Cu-Ni bath. <i>L. Elias, R.U. Banjan...</i>	352–359
8	Intercalation behavior of salicylic acid into calcined Cu-Al-layered double hydroxides for a controlled release formulation. <i>M. Haraketi, K. Hosni, E. Srasra</i>	360–370
9	Optimization of mechanical and tribological properties of anodized 5754 aluminium alloy. <i>M. Bargui, K. Elleuch, M. Wery, H.F. Ayedi</i>	371–382
10	On the mechanism of electric discharge enhancement of processes for purifying plant fibers from noncellulose substances: Part 2. Chemical and electrophysical influence of electric discharge on an aqueous medium-experimental investigations. <i>P.P. Malyushevskii, A.P. Malyushevskaya...</i>	383–393
11	Comparative effectiveness of infrared heat sources for mounting and dismounting electronic modules. <i>V.L. Lanin, A.I. Lappo</i>	394–399
Issue 5 (14 articles)		
1	A study of the wear resistance of a TiC–SiC composite ceramic material prepared by spark plasma sintering. <i>M.N. Kachenyuk, O.V. Somov...</i>	401–406
2	Anodic plasma electrolytic nitrocarburising of VT22 titanium alloy in carbamide and ammonium chloride electrolyte. <i>I.V. Tambovskiy, S.A. Kusmanov...</i>	407–412
3	Effect of electrolyte depletion on the characteristics of the anodic plasma electrolytic nitriding of a VT22 titanium alloy. <i>A.A. Smirnov, S.A. Kusmanov...</i>	413–418
4	Recent development of calcium phosphate-based coatings on titanium alloy implants. <i>S.A. Adeleke, A.R. Bushroa, I. Sopyan</i>	419–433
5	New procedure for analyzing processes in a plate precipitator. <i>I.P. Vereshchagin, K.A. Smagin</i>	434–438
6	Corrosion behavior of severely plastic deformed magnesium based alloys: A review. <i>D. Ahmadkhaniha, M. Fedel...</i>	439–448
7	Fabrication and anticorrosion performance of Ni–P–BN nanocomposite coatings on mild steel. <i>S. Ranganatha, T.V. Venkatesha</i>	449–455
8	On electromagnetic phenomena arising during the cavitation motion of a liquid in a coaxial dielectric channel. <i>V.A. Polyanskii, A.A. Monakhov...</i>	456–462
9	The influence of SiO ₂ and Al ₂ O ₃ nanoparticles on corrosion resistance enhancement of Ni–P on magnesium. <i>S. Sadreddini, H. Rassae</i>	463–466

10	Electrophoretic impregnation of porous anodizing layer by synthesized TiO ₂ nanoparticles. <i>M. Bargui, M. Messaoud, K. Elleuch</i>	467–474
11	Corrosion inhibition and adsorption behavior of <i>Murraya koenigii</i> extract for corrosion control of aluminum in hydrochloric acid medium. <i>Pushpanjali, Suma A. Rao...</i>	475–485
12	Impact of the shape of electrode-tool on radical overcut of micro-hole in electrochemical micromachining. <i>R. Thanigaivelan, R. Senthilkumar...</i>	486–492
13	Role of thiosulfate in susceptibility of AISI 316L austenitic stainless steels to pitting corrosion in 3.5% sodium chloride solutions. <i>Hosni Ezuber, Abdulla Alshater...</i>	493–500
14	Influence of the corona discharge parameters on the sorption properties of birch litter with respect to iron ions. <i>A.Sh. Shaimardanova, I.G. Shaikhiev...</i>	501–507
Issue 6 (12 articles)		
1	Influence of Triazole Stabilizers on the Surface Morphology of Environmentally Benign Electroless Nano Copper Deposition. <i>P. BalaRamesha, P. Venkatesh, R. Thinesh Kumar, and S. Jayalakshmi</i>	509–514
2	Effect of Vanadium Doping on Electrochemical Properties of Carbon Coated Nano Lithium Iron Phosphate for High Rate Applications. <i>T.V.S.L. Satyavania, A. Srinivas Kumar, and P.S.V. Subba Rao</i>	515–524
3	Methods for Controlling the Composition and Morphology of Electrodeposited Fe–Mo and Fe–Co–Mo Coatings. <i>M.V. Ved', I.Yu. Ermolenko, N.D. Sakhnenko, S.I. Zyubanova, and Yu.I. Sachanova</i>	525–532
4	Transport Properties of Solid Solutions of xKYF ₄ –(1 – x)PbF ₂ System. <i>Yu.V. Pogorenko, P.N. Pshenichnyi, A.A. Omel'chuk, and V.V. Trachevskii</i>	533–541
5	Voltammetric Responses of Black Radish Enzyme Preparation Immobilized on Kaolin and Aerosil. <i>K.D. Pershina, M.O. Khodykina, K.A. Kazdobin, and S.V. Shulga</i>	542–550
6	Electrochemical and Adsorption Studies for the Corrosion Control of 6061 Al Alloy Using Eco-Friendly Inhibitor. <i>B.P. Charitha and Padmalatha Rao</i>	551–559
7	Root and Shoot Extracts of <i>Ajuga chamaecistus</i> subsp. <i>scoparia</i> as Natural Inhibitors for 304 Stainless Steel Corrosion in Strong Acidic Medium. <i>Mehdi Shabani-Nooshabadi and Marzieh Kazemi-Darafshani</i>	560–569
8	Impact of Supporting Electrolytes on the Stability of TiO ₂ –Ti Counter Electrode during H ₂ O ₂ Electrogenation. <i>Raj Kumar Das and Animes Kumar Golder</i>	570–579
9	Wear and Corrosion Studies of Fe–B–Cr Alloy Coating on en 24 Steel by HVOF Thermal Spray Method. <i>M. Shunmuga Priyan</i>	580–586
10	Corrosion Inhibition Behaviour of Thiourea Derivatives in Acid Media against Mild Steel Deterioration: An Overview. <i>Prakash Shetty</i>	587–591
11	Electric Discharge in the Process for Recovering the Wastes of Printed Circuit Boards. <i>A. R. Rizun, T. D. Denisyuk, and A. O. Domershchikova</i>	592–596
12	Elimination of Irreversible Effects during First Charging of Lithium Battery Anodes. <i>Jiri Libich, Jiri Vondrak, Marie Sedlarikova, Josef Maca, and Ondrej Cech</i>	597–605
